

Gulfstream Park Cumulative Report (Updated)

Reporting Period: December 18, 2025 – January 11, 2026

Track: Gulfstream Park

Total Races: 159

1. Daily Performance Breakdown

The table below incorporates the new data from Sunday, January 11. The Total Strike Rate remains strong at 77.4% following a high-value day where the model identified 7 of 10 winners, including massive longshots in the 4th selection slot.

Date	Track	Total Races	Strike Rate (Top 4)	1st Pick	2nd Pick	3rd Pick	4th Pick	Avg Payout (Hits)
Dec 18	GP	8	75%	2	3	1	0	\$7.43
Dec 19	GP	9	78%	3	1	0	3	\$7.86
Dec 20	GP	11	91%	3	5	1	1	\$8.86
Dec 21	GP	10	80%	3	4	1	0	\$6.00
Dec 24	GP	9	78%	3	2	0	2	\$11.71
Dec 26	GP	10	100%	4	4	2	0	\$9.22
Dec 27	GP	11	73%	3	3	1	1	\$6.95
Dec 28	GP	10	80%	2	2	3	1	\$11.67
Jan 01	GP	10	80%	4	2	2	0	\$10.35
Jan 02	GP	9	78%	2	3	2	0	\$6.31
Jan 03	GP	11	73%	4	1	2	1	\$10.55
Jan 04	GP	10	70%	2	1	2	2	\$10.94
Jan 08	GP	10	60%	1	4	0	1	\$8.50
Jan 09	GP	10	90%	1	3	3	2	\$8.93
Jan 10	GP	11	64%	3	2	1	1	\$5.49
Jan 11	GP	10	70%	3	1	0	3	\$16.48
TOTALS		159	77.4%	43	41	21	18	\$9.22

2. Winner Distribution by Rank

Analysis of where winners ranked in the TrackSmart AI pre-race grid over the full period (159 Races).

AI Rank	Wins	Win %	Impact Note
Top Pick (#1)	43	27.0%	Leader: With 3 wins today (Races 4, 8, 10), the Top Pick has pulled ahead to become the sole leader in win volume.
2nd Selection	41	25.8%	Strong Support: Added 1 win today (Race 6), maintaining a dominant 52.8% win rate when combined with the Top Pick.
3rd			Quiet Day: No wins recorded in this slot today, but it remains a steady contributor

Selection	21	13.2%	overall.
4th Selection	18	11.3%	Massive Value: The star of the day on Jan 11. This slot delivered 3 huge winners (\$30.60, \$21.00, \$41.60), significantly boosting the average payout.
Missed	36	22.6%	Standard Variance: 3 misses today (Races 1, 5, 9) were primarily driven by chaos results and surface switches.

3. Cumulative Statistics

Metric	Stat	Description
Overall Accuracy	77.4%	High Consistency: The model has identified the winner in 123 out of 159 races this meet. The long-term trend remains rock-solid near 78%.
Top 2 Accuracy	52.8%	Primary Strength: The winner has been the AI's 1st or 2nd choice in roughly 53% of all races (84 wins total).
Avg Winner's Payout	\$9.22	Value Surge: The average payout jumped significantly (from \$8.78 to \$9.22) thanks to the high-priced winners captured on Jan 11 (\$16.48 daily average).

4. Jan 11 Missed Winner Analysis: Key Learnings

Sunday presented specific challenges regarding Maiden chaos and surface switches, though the model compensated by finding deep value elsewhere.

- **Race 1 (Maiden Chaos):** The winner, Fermi (\$21.00), was a First-Time Starter on synthetic. The AI prioritized experienced runners with established figures, viewing the newcomer as a "Fringe" contender.
- **Corrective Note:** In weak Maiden Claiming fields, "Sharp Gate Works" should be weighted more heavily to elevate potential first-timers into defensive slots.
- **Race 5 (Surface Switch):** The winner, Banker's Jet (\$9.20), was downgraded by the AI due to a move from Dirt to Turf. The AI underestimated his ability to transfer speed, and he wired the field.
- **Corrective Note:** When speed scratches occur (as happened here), the remaining primary "Need-the-Lead" horse should receive an automatic upgrade, regardless of surface concerns.
- **Race 9 (Logical Miss):** The AI listed St. Olaf Rose (\$6.40) as a contender but cut the horse from the final Top 4 in favor of "Chaos/Price" angles.
- **Corrective Note:** Horses with elite connections (like Irad Ortiz/Regalbuto) that fit the speed par should prioritize over "consistent grinders" or speculative price plays for the final slots.
