Section 1: Race Information

- Track, Date, Race #: Aqueduct, Saturday, November 15, 2025, Race 7
- Surface, Distance: Turf, $\frac{1}{8}$ Mile (JCOaks-G3, \$350,000 purse)
- Bris Speed Rating (SPD) Par: 88
- Rail setting / course notes: Not Available
- Pre-Race Gate Status: Confirmed Q1–Q4 captured (Yes)

Race Overview (v1.7 Bris)

- Race Conditions $\rightarrow$ JCOaks-G3 $\frac{1}{8}$ Mile (T) 3yo Fillies.
 - Parsed breakdown: 3yo Fillies | Open | Grade 3 Stakes.
- Bias IV (Meet): E=1.21 / E-P=0.94 / P=0.84 / S=1.22
- Bias IV (Week): E=1.58 / E-P=0.91 / P=0.79 / S=1.08
- Bris Field Means $\rightarrow$ SPD=88.5 | E1=84.3 | E2=86.7 | LP=91.4
- Prime Power Top 3 $\rightarrow$ #4 Fionn (167.3), #7 Laurelin (156.6), #2 Hereforagoodtime (151.6)
- Trainer/Jockey Snapshot $\rightarrow$ Cox/Prat L60 = 31% (ROI +1.04) ; Clement/Franco L60 = 18% (ROI -0.90)

Section 2: Projected Fractions & Final Time

- Pace Scenario Adjustments (from Dampener Module): Not Applied.
- Primary Pace Scenario (70% Likelihood): Pressured/Hot Pace. Committed Speed Count (4 E/E-P horses) is high for a $\frac{1}{8}$ mile turf route, suggesting a contentious early pace.
 - Projected Fractions & Final Time (Pressured/Hot): $\frac{1}{4}$:24.0, $\frac{1}{2}$:48.5, $\frac{3}{4}$ 1:12.8, Final 2:16.5
- Secondary Pace Scenario (30% Likelihood): Honest Pace / Duel and Survive. If the front speeds rate kindly, the pace will be honest but sustainable by the best runner.
 - Projected Fractions & Final Time (Honest Pace): $\frac{1}{4}$:24.5, $\frac{1}{2}$:49.0, $\frac{3}{4}$ 1:13.5, Final 2:17.5
- Pace Model Calibration Check (v3.7 addition - Mandatory): Not Applied.
- Reasoning: Four horses are coded as E/E-P types (#3, #5, #6, #7), which, in a Grade 3 turf route, suggests strong early pressure. Pace is likely to be quicker than normal for this distance, setting up closers/stalkers who can rate off

the pace.

Section 3: Pace & Trip Master Module (MANDATORY EXECUTION)

Part A: Initial Pace Data

- **Primary Pace Scenario:** Pressured/Hot Pace - 70%
- **Secondary Pace Scenario:** Honest Pace / Duel and Survive - 30%
- **Pace Contestant List (NL & PP Personas):** #3 National Archive (E/P 4), #5 Evershed (E/P 4), #6 Don't Jinx It (E/P 6), #7 Laurelin (P 4)
- **Pace Contestant Count:** 4

Part B: Speed Duel Analysis (MANDATORY CHECK)

Committed Speed Showdown (CSS) Module Analysis
(Pace Contestant Count = 4)

Rank	Horse	Top RCB (from Bris Speed Rating)	Tie-Breaker Won?	Final Rank
1	#7 Laurelin	96	Tier 2 (Form Cycle)	Prime Speed
2	#4 Fionn	93	-	Secondary Speed
3	#2 Hereforagoodtime	91	-	Vulnerable Speed

Note: Laurelin (P 4) is tactically fast, and Fionn (S 0) is classified as a Sustained Closer but has high speed durability (93 peak SPD) and the highest Prime Power.

- **Dominant Speed Override Triggered:** Not Triggered.

Part C: Final Pace Designations & Race Flow Narrative

- **Tough/Prime Speed:** #7 Laurelin
- **Vulnerable Frontrunners:** #3 National Archive, #5 Evershed, #6 Don't Jinx It
- **Well-Positioned Stalkers/Closers:** #4 Fionn, #1 Scythian, #2 Hereforagoodtime, #8 Unmerited Favor

Projected Race Flow (Narrative)

- **Primary Scenario Flow (70% Likelihood):** A group of four horses will vie for early position in this Grade 3 route, with #6 Don't Jinx It (E/P 6) potentially setting the fastest early fraction. However, the resilient #7 Laurelin (Prime Speed) is expected to rate just off the initial pace and prove the most durable of the forwardly placed horses. This will set up the closers, particularly #4 Fionn, for a strong late run.
- **Secondary Scenario Flow (30% Likelihood):** The pace is more moderate, allowing #7 Laurelin or #4 Fionn to control the tempo from the stalking/pressing ranks. This scenario favors the classiest horse, which is #4 Fionn (Top Prime Power).
- **AI Call:** Expect the pace to be hot enough to compromise the lesser speeds. The race should hinge on the sustained closing kick of **#4 Fionn** against the tactical durability of **#7 Laurelin**. The other closers are poised to benefit if the duel is destructive.

Suggested Bets (v6.0 – Strategic Wagering Guide)

Strategic Overview

This race profiles as a **Race with a Vulnerable Favorite**. Our wagering strategy will therefore focus on **spreading coverage** and **structuring bets to capitalize on a pace collapse**. All wagers are built around a "Core Betting Pool" to balance the most likely outcomes with high-value saver plays.

Contender & Wagering Rundown

- **Top Pick: #4 Fionn** – The most likely winner and the horse to beat.
- **Main Danger: #7 Laurelin** – The most logical challenger; a must-use in all exotics.
- **Top Value/Chaos Horse: #8 Unmerited Favor** – Represents the best value for an upset. This horse is the key to unlocking high-paying exotic wagers.

Core Betting Pool: #4, #7, #8, #2

Win Wagers

- **Primary Bet:** A dutched (shared) win bet across the Top 2 horses (**#4, #7**) in the Core Pool.
- **Value Saver:** A mandatory saver win bet on **#8** (ML 15-1).

AI Commentary: The primary dutched bet is a defensive position to ensure a return if the logical horses perform well. The Value Saver on #8 is our offensive play; it guarantees we don't miss out on a big win payout from our best-identified longshot.

Exacta Wagers

- **Primary Bet:** An Exacta Box of all horses in the **Core Betting Pool**.
 - **BOX #4, #7, #8, #2**

AI Commentary: The Exacta Box is the most robust wager for an uncertain race, covering all 1-2 combinations within our core group of contenders.

Trifecta Wagers

- **Primary Bet:** A Trifecta keying the Top 2 horses from the Core Pool in 1st, over the full Core Pool in 2nd, over the full Core Pool in 3rd.
 - **#4, #7 / #4, #7, #8, #2 / #4, #7, #8, #2**
- **Chaos Bet (The High-Payout Play):** A Trifecta keying our top-ranked **【CHAOS】** or **【LIVE OVERLAY】** horse in the 1st position, over the Core Pool in 2nd, and ALL horses in 3rd.

- #8 / #4, #7, #8, #2 / ALL

AI Commentary (Chaos Bet): This is our home run swing. This ticket is specifically designed to cash **only if our best longshot wins**. By placing the "big price" horse on top of more predictable contenders, we position ourselves for a massive payout if the race unfolds chaotically.

Superfecta Wagers

- **Chaos Bet (The Lottery Ticket):** A Superfecta keying the top-ranked 【CHAOS】 or 【LIVE OVERLAY】 horse in the 1st position, over the Core Pool in the 2nd and 3rd positions, and ALL horses in 4th.
 - #8 / #4, #7, #8, #2 / #4, #7, #8, #2 / ALL

AI Commentary (Chaos Bet): This is a small investment for a potentially huge reward. The structure is designed to hit if our top longshot wins and our other core contenders fill out the board. This wager anticipates a complete meltdown of the favorites and offers the highest potential return on investment.

 Value Angles Recap

TrackSmart AI highlights the following horses with special betting relevance:

- **Overlay/Value Plays:** #8 Unmerited Favor (15-1, LIVE), #1 Scythian (8-1, LIVE)
- **Chaos Candidates:** #8 Unmerited Favor (CI=7), #1 Scythian (CI=5)
- **Trip Advantage Horses:** #2 Hereforagoodtime (Pace Shape Upgrade +10)
- **Form Cycle/Workout Plays:** #8 Unmerited Favor (Winning Form Override)

Usage: These horses should be prioritized for inclusion in exotics and horizontal bets as value multipliers. Even if not ranked Top 3, they are **live angles that create ROI opportunities**.

Quick Race Call & Summary

- **Race Flow:** Four speeds may contest the lead early, setting up the most dangerous stalkers and closers. The pace is projected to be Pressured/Hot.
- **Most Likely Winner:** #4 Fionn — projected to have the class edge after dropping from a Grade 1, and possesses the highest final speed figure.
- **Main Danger:** #7 Laurelin — logical threat if the top falters, with the field's best turf speed and proven durability.

- **Value/Chaos Threat:** #8 Unmerited Favor — promoted value play off a win with a favorable chaos/closing profile for the projected pace.

AI Call: Expect **Fionn** to prove best, with **Laurelin** the danger, and **Unmerited Favor** the horse who could blow up the exotics.
